

# LEED EXAMINATION PREPARATION AND CREDENTIAL MAINTENANCE

---

## Eligibility for GBCI's LEED Green Associate exam

Any of USGBC's online courses or instructor-led workshops satisfies eligibility requirements for GBCI's LEED Green Associate exam.

## LEED Credential Study Guides *New! Planned for Summer 2009*

LEED exam preparation guides support professionals seeking the Green Associate or any of the LEED AP credentials. Written study guides and practice exams will help you to identify areas to focus your study; test your knowledge on simulated questions; familiarize you with the exam platform; and support you in succeeding the first time.

Versions will be available for each LEED credential track. The dates listed below have been targeted to launch each of the exam preparation guides in e-book format; hard copies will be available within one to two months of the e-book launch. Exact dates, pricing and format purchase options are TBD and subject to change.

E-book exam preparation guides will be available:

Green Associate

July 2009

Homes	July 2009
Green Building Operations & Maintenance	August 2009
Green Building Design & Construction	August 2009
Green Interior Design & Construction	August 2009
Neighborhood Development	November 2009

In addition to these study guides and practice exams, USGBC's core curriculum also provides foundational knowledge about green building and LEED that supports professionals pursuing any LEED credential.

<b>If you want....</b>	<b>...take this course</b>
To prepare for the <b>LEED Green Associate exam</b>	<i>LEED Core Concepts &amp; Strategies</i>
To prepare for the following <b>LEED AP exam</b> :	
Building Design & Construction (BD+C)	<i>Green Building Design &amp; Construction: The LEED Implementation Process</i>
